The town had not been captured up to noon today, although the surrounding country was entirely in the hands of the Boers.

We are supposed to be living here in a state of war, but Ladysmith has all the aspects of a peaceful garrison town in England. The Boers show no disposition to attack us. They certainly have missed their opportunity, for now I consider the strength of the British forces in the colony sufficient to resist any possible attack. It is the general wish of officers and men of the imperial troops that the Boers would come on for a rough tussel. The struggle will be hard, but the British expect to win.

Five Masked Men Gng Station Agent, Fing Train and Blow Express Car.

CHICAGO, Ill., Oct. 14.-The Northwestern limited train leaving Chicago at 10:30 p. m. last night was held up act far from Deknib, Ill., and robbed. The train is due at Dekalb at 12:20, and the holdup occurred at tower W, three miles from Maple Park, Ill. It is not known whether the robbers secured any great amount of booty. A special train containing a number of armed men and detectives left the Northwestern station in Chicago tonight, bound for the scene of the rob-

It is said there were five masked men engaged in the operation. The train was flagged, and while two of the mea compelled the engineer and fireman to run the engine ahead, the balance of them robbed the train. The train dispatcher's office of the Northwestern road in this city admitted the truth of

the story to the central police officials. The robbery was evidently carefully planned. Twenty minutes before the train was due at Maple Park the robbers burst into the station house and presenting revolvers at the head of the station agent, compelled him to remain quiet while they bound him. After tying him fast to a chair they forced a gag into his mouth and left him utterly helpless.

The signals were then changed so that the train would be compelled to stop before reaching the depot. The robbers went down the track to a point where the train would stop and waited for it. As soon as it came to a halt two of the men covered the engineer and fireman with revolvers and after uncoupling the engine, compelled the engineer to run it down the track two miles.

With dynamite the robbers blew up the express car, practically demolishing it and blocking the track.

They then cracked open the safe and rifled it. It is not known how much money was secured. Immediately after grabbing what they could from the safe the robbers fled into the darkness. They are now being pursued, but the robbers have quite a lead over the posse that is after them.

BOERS ARE VERY ACTIVE.

Rumor Current that an Attack Will

Soon Be Made. LADYSMITH, Natal, Oct. 14 .- (New York World Cablegram .- A rumor is current that Ladysmith is to be attacked tonight. There is the utmost activity in the British camp here. Yet I doubt the report because the Boers hate attacking and rarely leave their laagers (camps) after sundown.

I am strongly of the opinion that the Boers will find a tough job at what-ever point they invade. The British officers and soldiers are well prepared and eager to fight. Authentic news from the Transvaal is most difficult to obtain, but it cannot be that war has not been declared. It is also impossible to doubt that the Boers have taken a position on the Ingogo Heights on the British side of the border. They have moved their camp from Albertina, near the border, and are at present in force at Mount Tintwa.
